

REFRESHING NEWS FOR PATIENTS WITH DYSPHAGIA

This information is intended for healthcare professionals only. Nutrilis Complete is a Food for Special Medical Purposes for the dietary management of disease related malnutrition and must be used under medical supervision.

Nutrilis Complete with **cooling sensation** ensures a more **refreshing mouth sensation** by introducing two new flavours:

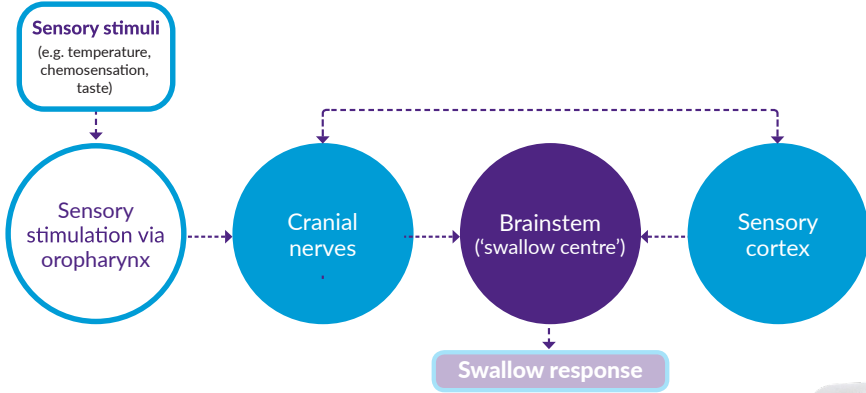

✓ LEMON TEA

✓ MANGO PASSION FRUIT

SENSORY STIMULATION IS KNOWN TO SUPPORT THE SWALLOWING RESPONSE

Sensory stimulation is crucial in modulating the swallow response.

Oropharyngeal sensory deficit has been linked to dysphagia¹ and is related to higher prevalence of aspiration² in people with neurological disease.

THE TASTE OF COOL: NUTILIS COMPLETE* IN TWO NEW FLAVOURS

Mango Passion Fruit and Lemon Tea: designed specifically to provide a cooling mouth sensation that aims to enhance sensory input in the oropharynx.

Ready-to-use,

EVIDENCE SUGGESTS ACTIVE SENSORY ENHANCEMENT STRATEGIES CAN COMPENSATE FOR THE LOSS OF OROPHARYNGEAL SENSITIVITY

Following more than 20 years of research into the field of dysphagia, cold 'touch' sensory stimulation of the oropharynx has been proven to have benefits for the swallow reflex of dysphagia patients. Studies have shown:

Cold 'touch' stimulation can produce a significant increase in onset time and repetitive frequency of swallowing.¹

Water with a temperature below body temperature accelerates triggering of the swallowing reflex in post-stroke patients with recurrent episodes of pneumonia.²

Cold stimulation before swallowing stimulation significantly improved the swallowing reflex.³

These findings form the basis for the development of Nutricia's active sensory enhancement products for patients with dysphagia.

Has amylase resistant features⁴ for a safer swallow⁵

Smaller volume with a compact bottle (125ml) to improve compliance^{6,7}

THE NUTILIS PRE-THICKENED RANGE FOR DYSPHAGIA PATIENTS

- The reassurance of the right consistency for every level¹
- Nutritionally complete, high in energy** and contains protein
- Amylase²⁻⁴ resistant features for a safer swallow
- A range of different flavours
- Ready-to-use: no preparation required
- Low volume to aid compliance⁵
- All Nutilis products have been tested to align and re-labelled with IDDSI levels
