The Treasure Hunt

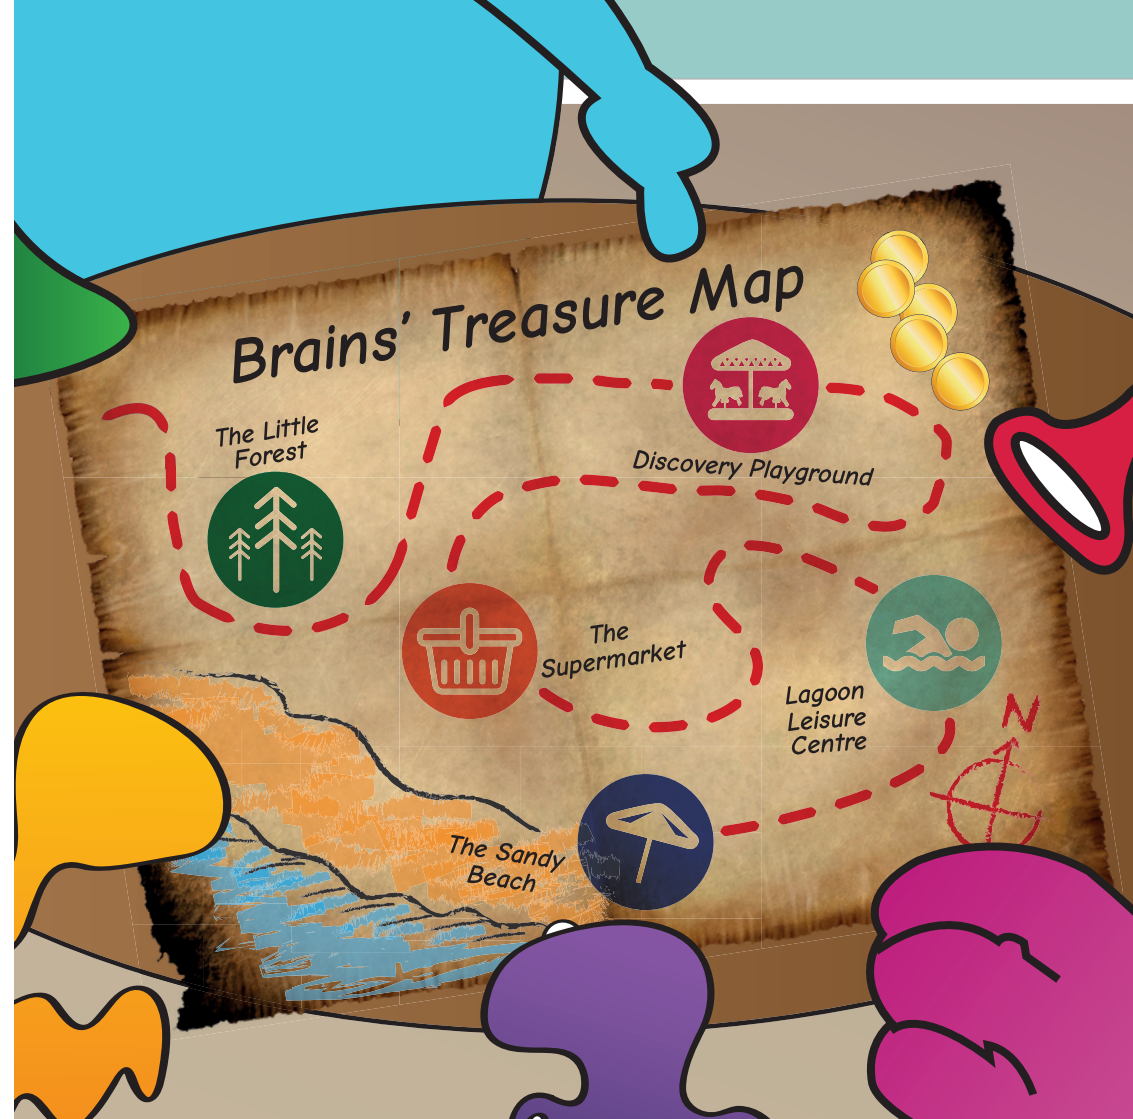

It was a Saturday morning and the Anamix 6 were gathered around the kitchen table. Brains had created the most amazing treasure map!

"Today we are going on a Treasure Hunt!" he said.

"I have hidden 5 golden coins in 5 different places near to the club house and drawn a special map to help you find them! Do you want to start looking for them?"

Everyone gathers round to look at the map.

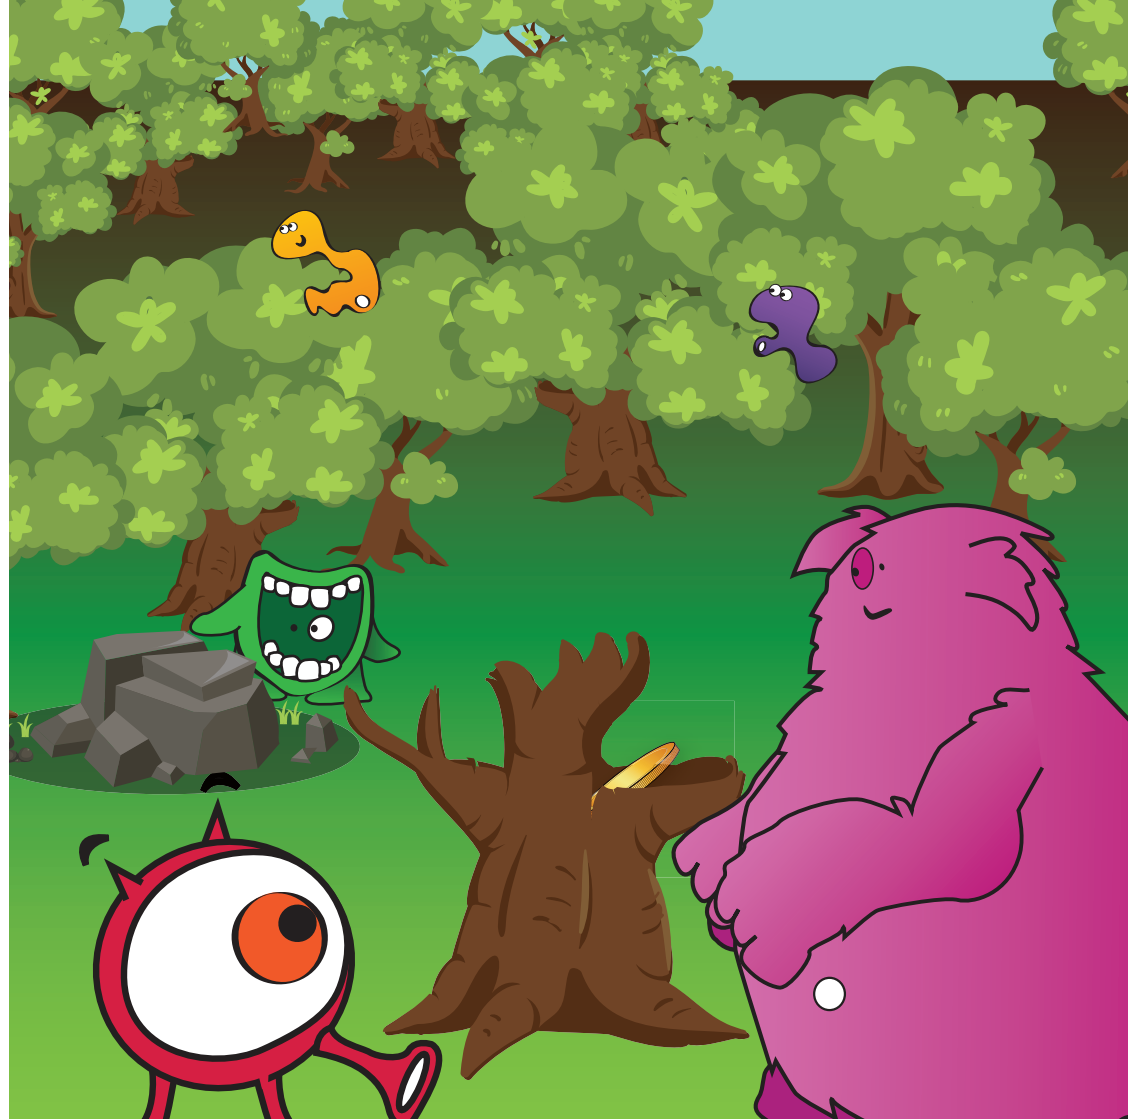

"Oh yes!" said the rest of the Anamix 6.

The first stop on their Treasure Hunt was
the little forest.

“Where can it be?” said the Omega Twins.
They check high in the trees and under the rocks.

Can you help them find the golden coin?

Next the Anamix 6 went to their favourite play ground.

“This is one of my best places to come.
I love it here!” said Big Eye.

They searched high and low among the picnic tables and slides.

Can you see the golden coin
they are looking for?

The Anamix 6 then went to the supermarket
to look for the next golden coin
on their Treasure Hunt.

“Oh I do like coming to the supermarket!”
said MegaByte. He was always hungry!

There were lots of places to hide
the treasure here.

Can you help them find it?

At the leisure centre, the Anamix 6 were continuing on their Treasure Hunt adventure.

Standing by the swimming pool,
Bones shouted "I think I can see it!
Shall I jump in?"

"You'll make the biggest splash ever!"
said the Anamix 6.

Can you see the golden coin
they are looking for?

The final stop on the big Treasure Hunt
was the beach.

“We all love collecting shells whenever
we come here” said Brains.

“So I’ve hidden the last golden coin
under a shell!”

There were so many shells!

Can you help them find
the last golden coin?

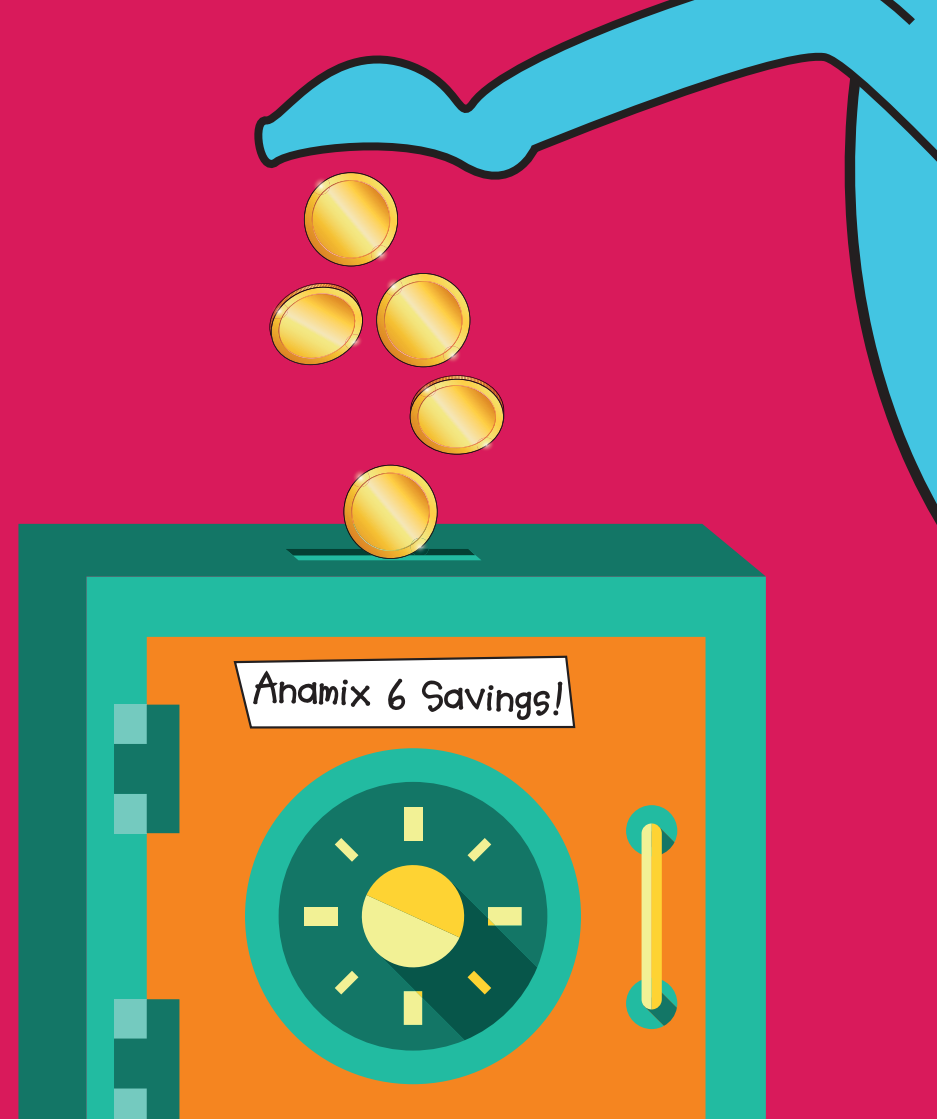

Back at the club house the gang gather round
with the 5 golden coins they had found.

“What shall we do with them?”
said the Omega Twins.

Then Brains had another great idea.

“Let’s put them in to our money box.
We can use them for our next adventure
on holiday!” he said.

“Where are we going?” shouted the Anamix 6,
all at once! “We love holidays!”
