Spaces at this event are limited. Early registration is advised.

For more information, please contact your local Nutricia Representative or email events.ireland@nutricia.com.
Nutricia Ireland, Deansgrange Business Park, Deansgrange, Co. Dublin

This symposium aims to:

1. Discuss the importance of the neonatal period and the development of feeding skills and their impact on future complex feeding difficulties
2. Provide a theoretical understanding for the basis of selective eating and food refusal
3. Explore the assessments of such difficulties and the current evidence base for interventions
4. Consider the practical approach in delivering intervention through workshops and case studies
