**This information is intended for Healthcare Professionals only.**

PKU GMPPro Ultra<sup>®</sup> is a Food for Special Medicinal Purposes, for the dietary management of proven Phenylketonuria (PKU) and must be used under medical supervision.

1. Nutricia UK ACBS trial, data on file 2022.

Accurate at time of publication - July 2023.

Co-created with patients, **PKU GMPPro Ultra®**  
is designed to support convenience and adherence

PKU GMPPro Ultra is a flavoured, nutritionally incomplete, low phenylalanine powdered drink mix containing glycomacropeptide (GMP). With essential and non-essential amino acids, vitamins, trace elements and a small amount of carbohydrate and fat.<sup>1\*</sup>

**Modern+Discreet  
Packaging**  
Suitable for patients

**Suitable for patients  
3+ years old**

Serving Suggestion

## Why PKU GMPPro Ultra®?

- 

**Tasty<sup>1</sup>  
flavour**

Better tasting protein substitutes can **help to support adherence** to the diet.<sup>2-5</sup>
- 

**Wide range  
of vitamins &  
minerals**

Contains a wide range of vitamins, minerals and micronutrients.
- 

**Low in  
calories**

**Low in calories** 98kcal per 20g protein equivalent (PE).
- 

**Modern  
and discreet  
packaging**

Sachets made to **incorporate easily into patients daily routines**, taken anywhere, anytime.
- 

**Low in  
volume**

One sachet dilutes in **as little as 180ml of water**.
- 

**Protein-dense**

PKU GMPPro Ultra® **provides 60g PE per day** in only 3 servings.

\*PKU GMPPro Ultra® contains 36.0mg of phenylalanine per 33.4g sachet. This should be taken into consideration as part of the patient's overall dietary intake. Protein substitutes based on GMP are a natural source of phenylalanine.
